

# Please Help Us Conserve Water!

## 10 Simple Actions You Can Take To Save Water

1. Plant California-friendly trees and plants
2. Shrink your lawn and water it less
3. Adjust sprinklers so they do not water driveways and sidewalks
4. Always use a shut-off nozzle on your hose
5. Use a broom to clean driveways and sidewalks
6. Fix leaky faucets and toilets
7. Run the dishwasher and washing machine only when loads are full
8. Take shorter showers and turn off the water while lathering
9. Turn off the faucet when brushing your teeth
10. Install water wise fixtures and appliances

Together we can all do our part to conserve and extend the community's valuable water supplies during this drought.
