SITE PLANS, MAPS, BUILDING PLANS

- Submit copies of project development plans, maps and/or building plans**
Note: This is not engineered construction drawings of water system improvements. After District staff has issued a Conditions Letter in response to this application, then engineered plans may be submitted for plan check.

PRELIMINARY TITLE REPORT & EASEMENT DOCUMENTS

- Required for applications involving parcel splits, subdivisions, and/or development plans. May be required for other applications as determined by Goleta Water District staff.**

WATER DEMAND CALCULATIONS

- Provide calculations for project water use, interior and exterior, from engineer, architect and/or landscape architect**

CROSS CONNECTION SURVEY FORM

- Complete Cross Connection Survey Form for applicable information regarding existing on site conditions of other water sources, supplies or other activities as requested on the form For a Cross Connection Survey Form - [CLICK HERE](#) (right click and select open in web browser)**

FIRE DEPARTMENT CONDITIONS LETTER

- Required for all applications except those involving only irrigation meters.**

This application for water service is for the installation of new or modified service connections, meters, and/ or fireline connections. This application may require the design and replacement or construction of water system improvements, such as water mains, booster pumps, pressure reducing stations, storage tanks, valves, etc. The undersigned agrees to:

- a) pay all fees and charges of the District including deposits for administration, plancheck, construction, construction inspection and testing prior to receiving a Can and Will Serve letter from the District and prior to construction and installation of water system improvements, service connections and meters
- b) have engineered plans for water system improvements, service connections and meters as may be required by the District prepared in accordance with the District's standards and specifications by a registered civil engineer licensed in the State of California
- c) furnish to the District construction sureties for performance and labor and material, in a form satisfactory to the District, prior to receipt of District's Can and Will Serve letter and prior to construction, for the satisfactory installation of water system improvements, fire hydrants, water service connections, and/ or private fire lines in accordance with engineered plans reviewed and accepted by District staff as being in compliance with District standards and specifications
- d) convey ownership by dedication of water system improvements, service connections, and meters constructed and installed to serve property for which this application is being made, as required by the District, to the Goleta Water District

- e) and to indemnify and hold harmless the Goleta Water District, its Board of Directors, General Manager, employees and agents from any suits, claims, or actions brought by any person, persons or entity for or on account of any injuries or damages, incurred or sustained, arising out of, in connection with, or in consequence of the construction and/ or installation of the water system improvements, fire hydrants, service connections, meters, etc. of this application.

Prior to acceptance by the District of the water system improvements being dedicated by the applicant, the applicant shall furnish the District evidence that no unpaid claims remain against those improvements being conveyed to the District.

Un-metered Water Service Connections:

For an un-metered water service connection for fire protection to the property, the undersigned agrees to pay to the Goleta Water District, as a standby charge, the sum of \$ 2.00 per fire hydrant for each and every fire hydrant located, or to be located, on the property and a service rate of \$ _____ per year for fire system sprinklers connected to the service connection.

Non-dedicated Water System Improvements:

Water system improvements and service connections which are on the property for which this application is being made and not accepted by dedication for ownership by the Goleta Water District, shall remain under the ownership of the applicant, its heirs or assigns, and shall be maintained, serviced, tested and/ or replaced at the owner's expense. Billing for the un-metered service shall be rendered semiannually about the first of January and the first of July of each year.

Release of Construction Surety:

Upon the District's acceptance of dedication for ownership of the water system improvements service connections, meters, etc. constructed and installed per this application the District shall release up to 50 percent of the performance surety. Ninety days after acceptance by the District's Board of Directors of dedication for ownership of the water system improvements, service connections, meters, etc. constructed and installed per this application, the District shall release the construction surety for labor and materials. One year after the date of acceptance by the District's Board of Directors of dedication for ownership of the water system improvements, service connections, meters, etc. constructed and installed per this application, the District shall release the remaining portion of the performance surety.

Final Accounting of Charges:

After the actual final costs for plan checking, inspection, testing and connection of water system improvements, and installation of meters have been determined by the District, the applicant will be notified of those costs in writing. If the monies deposited by the applicant with the District for those costs is greater than the actual final costs determined by the District, a refund shall be made to the applicant for the difference between the deposit and the actual final costs. If the actual final costs are greater than the amount deposited with the District by the applicant, then the applicant will pay the District the difference between the actual final costs and the amount of monies deposited as the balance due on the applicant's account with the District. If the applicant fails to pay the balance due to the District, the applicant agrees to pay all costs of collection including attorney's fees in addition to the balance due.

Temporary Meters:

All temporary meters shall be installed with and have a double check valve backflow prevention assembly. The applicant shall pay for the installation of the meter and backflow prevention assembly along with a deposit for the meter and backflow prevention device. Only District personnel shall install and/or relocate the meter and backflow prevention devices. Upon installation and every time the temporary meter and backflow prevention device is relocated, the backflow prevention device shall be tested and/or retested by a District Certified Backflow Tester at the applicant's expense. The Testor shall record the test results on the District's Test and Maintenance – Backflow Prevention Device Report and submit it to the District's Cross Connection Program Administrator. The meter and backflow prevention device shall not be turned on or approved for service until the test report has been reviewed and approved by the Cross Connection Program Administrator.

The undersigned states that it is familiar with the Goleta Water District Code, Standards & Specifications and agrees to abide by said Code, , Standards & Specifications at all times as they now exist or may hereafter be amended.
