

# How Much Water Do I Use?

**Low**

**Multi-Family Residential (MFR)  
1 Unit with no Outdoor Landscaping**

(2-4 HCF\* per month)

**Medium**

**Single Family Residential (SFR)  
with Water Wise Landscape**

(6-10 HCF\* per month)

**High**

**Single Family Residential (SFR)  
with One Large Lawn**

(16-20 HCF\* per month)

## Water Saving Tips to Save 20% +

- Check for and fix leaks immediately, especially toilets.
- Run full loads of laundry or dishes.
- Take shorter showers and fewer baths.
- Turn off faucet while brushing teeth and doing dishes until it is time to rinse.

**Very low water users may already have done their part.**

\*1 HCF = 748 Gallons

- Check for leaks, overspray and runoff by turning on your irrigation system.
- Confirm that the irrigation scheduling has not defaulted to the factory setting.
- Match irrigation to the Watering Percent Adjust feature at [www.WaterWiseSB.org](http://www.WaterWiseSB.org).
- Convert sprinklers to drip irrigation.
- Mulch plants to further decrease the frequency with which you need to water.

- Follow the tips on the left, plus...
- Remove or reduce areas of lawn that get little use.
- Switch out plants for water wise alternatives.
- Use a pool cover to prevent up to 95% of water lost to evaporation.
- For assistance, contact the District for a virtual conservation check-up.

Water bills in Hundred Cubic Feet or HCF, and each HCF is 748 gallons. The District bills in tiered rates, so a customer who reduces from 15 HCF a month to 11 HCF would see a bigger reduction in their bill than a customer who reduces from 6 to 2 HCF because water use above 12 HCF is billed at the highest per unit rate and the highest Monthly Service Charge under the District's Single Family Residential conservation rates.

### TAKE A LOOK AT YOUR BILL

**To find out how much water you use**

If you receive a bill from the District, the amount of water used for each monthly billing period will be listed in hundred cubic feet (HCF) on the upper right hand corner of your bill under "Usage."
